PROFILE

I am a final-year Computer Science student with a strong interest in front-end development. I enjoy creating user-friendly interfaces and leveraging technology to enhance user experiences. Passionate about continuous learning and solving problems through code. I thrive in collaborative team environments and value effective communication to achieve shared goals. I am detail-oriented, ensuring high-quality results in every project. Always eager to explore new tools and technologies to stay ahead in the dynamic field of web development.

EDUCATION

Computer Science   Aug 2021 - Present
BINUS University

EMPLOYMENT

Front End Developer Intern   Feb 2024 - Feb 2025
Blibli.com
- Developed user interfaces for web-based applications using the Vue.js framework, focusing on performance and responsiveness.
- Designed and implemented integration tests to ensure component interoperability and system stability.
- Connected to API endpoints and created mock APIs locally to support development and testing processes.
- Contributed to the deployment of applications to production environments, ensuring smooth feature releases with optimal performance.

Software developer   Sep 2023 - Present
Ditto Dev
As a Freelance Software Developer, I am currently working on a project to develop a web application for Customer Relationship Management (CRM) for an insurance agency. The project involves utilizing modern web technologies to ensure a scalable, efficient, and user-friendly system.
